Why would anyone go a slot room in CT when 15 to 20 miles up the road you will have a full casino with all the amenities such as shows, buffet, hotel rooms and much more. What a cheap way to try and raise taxes. How much will it cost the town in increased expenses such as police fire social service from people going broke and needing social services, food bank, soup kitchen, fuel assistance, and many other problems including medical and addiction to gambling.
